

Armin Mueller-Stahl: Picture "Buddenbrooks" (2008) (Unique piece)

Product no.: IN-948073.00

Inspired by his work on films such as "Utz" (1992) and the film adaptation of the literary classic "Buddenbrooks" (2008), Armin Mueller-Stahl created entire graphic and painterly cycles that captured his impressions and experiences of character studies and filming. In doing so, he created a complete work of art. These "Notes of Emotions" also serve as a testimony to an intense balance to his acting work, and also as an artistic documentation of a process of work and creation.

The painting "Buddenbrooks" comes from this meticulous and comprehensive engagement with Thomas Mann's novel of the century and the intensive work required to portray the patriarch of the Lübeck merchant family. As with the script pages he painted, here too, the expressive brushstrokes combine with an abstractly reduced colour landscape and quick character sketches to create a complex depiction of the scene.

Acrylic on canvas, 2008, signed and dated. Unframed. Size stretched on stretcher frame 120 x 160 cm as shown.
